About Me

I'm a brand designer focused on helping startups communicate clearly and stand out through impactful visuals. I specialize in creating high-quality brand identities, social content, and motion designs for fintech, Web3, and SaaS products.
My approach combines design thinking with storytelling not just making things look good, but making them work.

Work Experience

Junior Designer — Xara (usexara.ai)
2025 — Present

- Support the design team in creating visual assets for digital products
- Assist in developing brand visuals and marketing creatives
- Work on layout design, social media graphics, and basic motion tasks
- Contribute to projects in a fast-paced, product-driven environment

Freelance Designer
2022 — Present

- Design brand identities, motion graphics, and social content for startups
- Work with clients in fintech, Web3, and SaaS spaces
- Deliver creative solutions focused on clarity, storytelling, and results
- Build and maintain long-term client relationships

Tools

- Adobe After Effects
- Adobe Photoshop
- Figma
